EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephan A. Pendorf on 06 December 2004.

The application has been amended as follows:
claims 17 and 18 have been canceled.

2. The following is an examiner's statement of reasons for allowance.

Claims 19 and 20 are directed to solid substrates having a group for initiating ATRP-polymerization chemically bonded to the surface of the substrate. Claim 20 further comprises an ATRP-polymerized polymer and/or oligomer layer formed and chemically bonded on the surface by means of the group for initiating ATRP-polymerization.

Guan et al. and Matyjaszewski et al. represent the closest prior art. However, as argued by the Applicant, neither Guan et al. nor Matyjaszewski et al. teach chemically bonding the polymer formed through ATRP to the surface of the substrate or chemically bonding an initiator for ATRP-polymerization to the surface of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
